

störn Audi B5 Quattro Differential Bushing Kit

Features

- Polyurethane Bushings
- Custom engineered
- Factory fitment
- Quick installation

Description

This differential bushing kit is part of the new **störn** line of performance products for the Audi and VW vehicles. This kit is designed as a

factory replacement bushing kit engineered to reduce differential movement which translates to more power to the wheels. High durometer polyurethane bushings are used to maximize control with precision aluminum sleeves for a perfect fit. Quick and easy installation makes this a great perfect upgrade for performance enthusiasts.
